

# The Directory of Currency Suppliers

## Fourth Edition

The one-stop suppliers reference guide for the currency industry

The Directory of Currency Suppliers is published as an A4 reference book, with sections on components and features, producers and production, processing and management, distribution and circulation and support services. Full alphabetical listings of all suppliers are provided, together with listings of central banks/issuing authorities and a section on currencies of the world. It is also available on CD Rom and, in database format, on the DataVault secure site for subscribers to Currency News.

Distribution is, in the first instance, free of charge to central banks and issuing authorities, to subscribers of Currency News and to all organizations listed in the Directory. It is available to other organizations for £150 (with requests vetted to ensure such organizations have a legitimate interest in currency). Subscribers to Currency News, meanwhile can order additional copies for £25.
